CEO, CHAIRMAN & CO-FOUNDER

Scott Larson
PRESIDENT & DIRECTOR

Paul Sun
CHIEF FINANCIAL OFFICER

Justin Hannewyk
SVP OPERATION

Paul Mullen
VP VITAL INTELLIGENCE

Cameron has been a technology entrepreneur for more than 30 years and has spent his career growing a diverse collection of high-potential ideas into revolutionary companies that have changed the way we experience the world.

Cameron takes a hands-on leadership role in projects, infusing innovation and adoption with the operational principles of clarity, alignment, and measurement into the culture of every team he works with.

Mr. Larson brings over 20 years of combined corporate finance, technology development and entrepreneurial experience to the Board.

Currently CEO of Kater, a Vancouver-based mobility as a service (MaaS) company building out an integrated intermodal transportation platform incorporating public transportation, buses, taxis and ride hailing vehicles into a single service.

Previously, Mr. Larson has been CEO and co-founder of Helios Wire, a satellite company building out a space-enabled IoT/M2M network, and was CEO and co-founder of UrtheCast.

Paul Sun has over 20 years of business experience and has held numerous senior roles at investment banks including Scotia Capital, Desjardins, and Beacon Securities.

Paul has provided financial solutions from small startups to billion dollar market cap companies and has been involved in many transactions across the entire capital structure.

Mr. Hannewyk is the co-founder of Drone Logics Systems and has been consulting with enterprise clients on the integration of drones for over a decade.

Working closely with international companies in industries such as mining, forestry, energy and entertainment as well as advising governmental bodies, Mr. Hannewyk oversees the design and delivery of systems to meet client's needs. A progressive and forward-thinker, Mr. Hannewyk draws from industry insight to recognize customer requirements and pinpoint areas where technology can be leveraged to make better business decisions.

My experience includes operational and strategic management in startups and large enterprise in telecommunications, digital health and mobility.

As an impact-oriented executive with experience leading transformative operations at all growth stages, I bring a willingness to nurture bold ideas and a track record of connecting and developing diverse teams. Highly motivated by innovation, I thrive in the development and pursuit of next-generation strategic objectives while rapidly iterating, and optimizing, existing processes and assets.
